PROFESSIONAL EXPERIENCE

Debbol   February 2024 - Present
Flutter Developer

- Developed user-friendly frontend interfaces for a food delivery app using Flutter Web, converting UI/UX designs into functional platforms.
- Implemented version control, state management, and Mapbox integration for dynamic location services and enhanced functionality.
- Created an admin website for tracking orders and metrics, improving operational efficiency and data management.

Wiizgood Ethiopia   December 2023 - March 2024
Internship

- Revamped company website, enhancing UI/UX design for improved user experience.
- Managed and optimized the company's bot, streamlining customer interactions and support.
- Spearheaded social media management across platforms including LinkedIn, Instagram, and Telegram.
- Successfully increased Telegram channel membership from 400 to 5,000 users, through strategic content and engagement initiatives.

Upwork   **September 2023 - Present**
Freelance

- Developed mobile applications for clients, leveraging Flutter framework.
- Proficiently debugged and resolved errors in pre-existing Flutter applications, ensuring smooth functionality.
- Managed deployment of applications to the Google Play Store, adhering to guidelines and ensuring seamless user accessibility.

SOFT SKILLS

Time Management	*Leadership*	*Problem Solver*
Teamwork	*Active Listener*	*Communication*

PROJECTS

Debbol Food Delivery Website   **March 2024 - June 2024**
Flutter

- User and Admin Interfaces: Developed a food delivery website with separate interfaces for users to order from nearby restaurants and for admins to manage restaurants and deliveries.
- Advanced Tech Stack: Utilized Flutter Web, Mapbox, GetX state management, and Git for version control.
- On Porfolio: naodtadele.com

FixMasters Handyman App   **April 2024 - May 2024**
Flutter & Firebase

- Comprehensive Handyman Connection: Developed the FixMasters app using Flutter and Firebase to connect users with the nearest handyman for various services. Includes a chat feature for seamless communication.
- Service Management for Handymen: Enabled handymen to manage bookings and services (gigs) through the app. Integrated Firebase Firestore for data management and local notifications for updates.
- Github: https://github.com/kronahs/fixmasters_user_app

Heelies Shoe Store   **November 2023 - December 2023**
Flutter, Nodejs, MongoDB

- Seamless E-commerce Experience: Developed the Heelies shoe store mobile app using Flutter, allowing users to browse and purchase shoes from various brands. Features include size selection, adding to cart, and purchasing.
- Robust Backend and Database: Utilized Node.js for backend operations and MongoDB for data storage, ensuring efficient performance and scalability.
- On Porfolio: naodtadele.com
